

Guapurri: User Quick-Start Guide

Welcome to **Guapurri**! This guide will help you get started with your new weather and travel app in just a few simple steps.

Step 1: Sign In

- Open the app on your mobile device.
 - Tap the **Log In with Google** button to sign in instantly, or use your email.
 - *Note: The app will automatically start in English.*
-

Step 2: Check Your Daily Weather & Outfit

- Tap on the **Weather** tab.
 - Type any city into the search bar at the top.
 - The app will instantly show you the **real-time temperature and climate**.
+2
 - Right below the temperature, you will see a **photo of the perfect outfit** to wear for that specific weather so you don't have to guess what to put on.
-

Step 3: Explore Travel Spots

- Tap on the **Travel** tab.
 - Choose the type of climate and season you want for your next holiday (for example: **Dry, Desert, or Winter**).
 - The app will instantly show you a list of great places to visit that match your choice, complete with beautiful photos.
-

Quick Tips for a Smooth Experience

- **No More Freezes:** You can combine any search terms (even "Dry Desert" and "Winter") without worrying about the app getting stuck or loading forever.
- **Easy Navigation:** Use the clean buttons at the bottom to jump between the **Wear an Outfit** guide and the **Travel** discovery page anytime you want!
